rabbit	vet	Bunny	black	water

I have got a pet. His name is Bunny.

He is a beautiful rabbit with soft, grey fur and long ears. He has got big, round, black eyes. My parents let me have it

because I promised to look after him. Looking after my Bunny is hard work. He always needs fresh water to drink. I must feed him every day. He eats carrots and corn. When he is sick, I have to take him to the vet.

I like having a pet.

I can play with him when my friends are busy. He is very playful and we have lots of fun together!
